Portfolio: <https://jimshibli.github.io/JimShibliPortfolio.github.io/>

PROFILE

Highly motivated and results-oriented first class Physics BSc graduate. Excellent mathematical and problem-solving abilities with a strong foundation in data analysis techniques and programming languages. Experienced in handling large scientific datasets and visualising complex data to extract insights. Actively seeking full-time positions in data analytics.

EDUCATION

BSc Physics, Newcastle University

Sept 2021 - June 2024

- Graduated with First Class Honours
- Particularly enjoyed the Observational Astronomy module, requiring the use of real data from the Hubble Space Telescope to analyse the features of over 10,000 galaxies across the observable universe.

Notre Dame Catholic High School, Sheffield

Sept 2014 - June 2021

- A-Levels in Physics (A*), Maths (A), and Chemistry (A)
 - 11 GCSEs including Physics (9), Maths (8), English (8).
 - Awarded the Physics Subject Prize for outstanding academic achievement in Sixth Form
-

EMPLOYMENT HISTORY

Freelance Data Analyst

Oct 2025 - Present

- Undertook a project for the early years music charity Concerteenies, based in South Yorkshire.
- Responsible for collecting and cleaning data regarding the charity's performances and venues from the last 3 years.
- Created an interactive map using Python, visualising location of all venues across South Yorkshire and enabling the charity to filter by venue type and local authority.

Customer Team Member, Co-op

Sept 2024 - Present

- Consistently delivered high-quality customer service, contributing to positive customer feedback.
- Collaborated with colleagues to serve customers while managing restocking and till operations, simultaneously improving product availability and reducing customer waiting times during peak hours.
- Maintained accuracy and speed at checkout, handling high transaction volumes with minimal errors.

Research Assistant, Sheffield Hallam University

Jun 2022 - Present

- Responsible for collecting and processing audience data at major sporting events including Wimbledon, The Open and TCS London Marathon.
- Performed fast, accurate data entry and cleaning using Teleform Verifier, demonstrating attention to detail and ability to focus, meet deadlines and collaborate within research teams.
- Proven to be highly motivated and tenacious field operative, often exceeding survey quotas, utilizing excellent interpersonal skills.

Tennis Coach, Hallamshire Tennis & Squash Club **May 2019 - Sep 2021**

- Qualified level 1 tennis coach, supporting group tennis lessons for all ages, from young children to adult beginners.
- Developed strong communication skills, breaking down complex skills into clear actionable steps.
- Connecting with and motivating players to progress by sharing my passion for the game.

COURSES

Data Analyst Associate, DataCamp

Nov 2024 - Jan 2025

- Used SQL to extract, join, clean and validate data.
- Demonstrated ability to use Python to manipulate data, visualize data and report key characteristics.
- Applied sampling methods to data and performed statistical tests.

Data Scientist Associate, DataCamp

Mar 2025 - May 2025

- Used Python to demonstrate knowledge of data management and statistical concepts.
- Learned to explore data through calculating metrics and visualisations.
- Implemented approaches for supervised and unsupervised learning problems.

SKILLS

- | | |
|---|---|
| • Python | • Teamwork |
| • SQL | • Communication (written and verbal) |
| • Tableau | • Attention to detail |
| • Excel | • Interpersonal skills |
| • Data Analysis | • Multitasking |
| • Data Visualisation | • Time management and meeting deadlines |
| • Analytical thinking and problem solving | |

PERSONAL INTERESTS

- I am a keen tennis player, having grown up training in performance squads at my local club, the Hallamshire Academy of Tennis in Sheffield. I continue to represent the club in the Men's Sheffield & District First Division League.

REFERENCES

Robbie Millar, Lecturer at Sheffield Hallam University

- "Jim has worked at some of the most prestigious sporting events in the world, including Wimbledon, The Open, and the TCS London Marathon. At all times he showed high professionalism and regularly steps up beyond the level expected of his role. I have managed Jim in some high pressure environments and seen firsthand his excellent communication and teamwork skills. Jim's enthusiasm to work hard and produce high quality outputs will be an asset to any organisation."
